Allow to send emails with a keystroke. Keycodes and templates are stored in the Keymacro data base (you can later download templates from For an overview of how to set up Keymacro on your computer, see the Keymacro Help file. Lets you save keystrokes and templates Let's you send emails with a keystroke Runs in every version of Windows Supports keystrokes and templates stored in the Keymacro data base Lets you create templates Customize the appearance of the messages (color, size) Supports 256 messages (next to a physical keyboard) Provides the possibility to use a shortcut (ctrl + f-key, for example, ctrl + A for the first letter of the mail subject) Supports a user defined environment variable (to indicate mail subject, email address and so on) Supports standard mailto links Supports enhanced mailto links Supports keystroke macros Supports Unicode Able to handle attachments (but this is not a file mail client - you have to save your mail first in the Keymacro data base) Makes all your mail available in another mail client (otherwise you would need to start Outlook, then do what you need and then quit) Export all your mail to a mail client of your choice Allows you to easily add standard headers to all your messages Allows you to send an email message containing an attachment without having to save your mail first in the Keymacro data base Allows you to use standard headers with an attachment Supports standard mailto links Supports enhanced mailto links Supports standard mailto links for an attachment Supports enhanced mailto links for an attachment Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supports Unicode (through the use of Unicode Shortcuts) Supp
